## **DETAILED ACTION**

### ***Response to Amendment***

1. The response filed December 28, 2004 is acknowledged.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Priority***

3. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Great Britain on November 11, 2003. It is noted, however, that applicant has not filed a certified copy of the British application as required by 35 U.S.C. 119(b).

### ***Claim Objections***

4. Claims 8-17 and 19 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims not been further treated on the merits.

### ***Claim Rejections - 35 USC § 112***

Art Unit: 3752

5. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: the "bore". A straw inherently has a bore but the recitation of a "bore" in claim 2 implies that a bore is not required in claim 1. A straw cannot function without a bore.

For example, in claims 2 and 7, the recitation "a bore" appears to be a double inclusion of the "first" and "second" ends.

Applicant is required to ensure that all the claims in their entirety fully comply with 35 U.S.C. 112, second paragraph.

#### ***Claim Rejections - 35 USC § 102***

6. Claim 18 is rejected under 35 U.S.C. 102(e) as being anticipated by Hirota et al. (6,375,019).

Hirota discloses a vessel 12 having a drinking straw 4 and bulkhead 7.

***Response to Arguments***

7. Applicant's arguments filed December 28, 2004 have been fully considered but they are not persuasive.

Applicant remarked that a copy of the certified published UK patent is enclosed in the response. What applicant has filed appears to be a copy of the published UK patent application. Applicant is required to file a certified copy of the British application as required by 35 U.S.C. 119(b).

In response to applicant's argument that a leading London patent agent wrote applicant's patent and subsequent claims. There is no power of attorney in the file appointing a London patent agent for prosecution of the present application. Applicant's remarks directed to a patent agent are improper.

Applicant's comment direct to claim 2 is not commensurate in scope with the claimed invention.

***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
